TO WHOM IT MAY CONCERN:

I have worked in the weight management industry for over 20 years. In June 2014, I opened Weigh to Wellness, a medically supervised weight management clinic in Birmingham, Alabama. Over the course of time, I have found that there are a limited number of software solutions to serve the specialty of bariatric medicine. It is my pleasure to have the opportunity to write a letter of recommendation for The Core by Pronex.

The key factor for choosing The Core was they immediately understood the importance of helping us manage and nurture the relationship we establish with patients and are dedicated to our needs and requirements, as well as the ability to supply us with an innovative solution within the means of our budget. Fred and Jean have assisted us in tailoring the application to include elements unique to our practice. It is robust with options but extremely user friendly. This software allows us to provide the best in patient care, save time and money while keeping documentation time to a minimum, which in turn increases revenue.

My focus is patient retention and satisfaction and The Core by Pronex has partnered with us in doing just that!

Sincerely,

Leslie F. Ellison
